To Prepare: ~~act~~ MI based activities with appropriate action verbs, to cover as many different MI's across as many different lessons as possible.
2. Use a variety of Content vs Process vs Product criteria ~~so that~~ to ensure ~~incorporate~~ Maker & Nielson's principles of differentiation are also being met
3. Some of the activities may be used instead of ; or some as well as depending on the level of giftedness of the child.
4. I particularly like the format of the Reading Contract Grid on Page 58 as a framework that could be incorporated into every unit.
